Jazz in the Afternoon, KCSM

THE FRED RANDOLPH BAND possesses extensive experience in jazz circles and an expansive vernacular. Their riveting music encompasses multi-layered compositions and a diverse palette of sounds, taking the listener on an explosive and eclectic journey across music borders and genres.

After playing together for many years and recording three CDs, the quintet has melded into a tight-knit force of boundless creativity, energy, and technical virtuosity. The ensemble spirit is complimented by daring improvisation and a dynamic set list, mostly originals composed by Randolph, who derives inspiration from past jazz greats, global music sounds, personal and universal experiences. According to Randolph, “Music informs the narrative of life. It is through music that one is able to listen to the heart and soul of a people. Through our music, we hope to touch your soul.”
